THE MEME

For more than 100 years...

Humans worked the same way:

- ▶ wake up
- ▶ commute
- ▶ sit in an office
- ▶ repeat

But the world is changing.

AI is taking over routine work. Automation is replacing repetitive jobs.

The office is becoming obsolete.

Humans are no longer workers.

Humans become explorers.

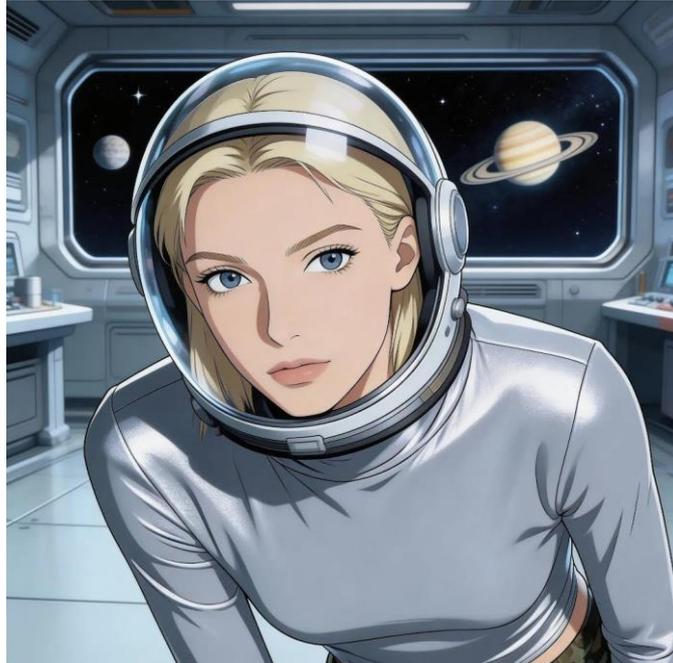

Welcome to the Officeverse AI.

A multiverse where AI works and humans explore. And every universe needs a currency.

That currency is \$OFFICE.
